

Welcome to Oak National Academy

Oak provides a completely free, sequenced plan of lessons, which can be used as you wish to help with lesson planning and lowering teacher workload. With nearly 40,000 lessons and resources across a broad range of subjects from EYFS up to Year 11 in most subjects, there are enough lessons for the whole year. There are also 600 lessons for pupils who normally attend specialist settings. Every lesson has been created by teachers, for teachers. They've been tried and tested, with pupils taking part in 138 million lessons since April 2020.

Follow these steps to get started with Oak:

1. Head to our [Teacher Hub](#) at **teachers.thenational.academy**.
2. Search for your desired lesson. Use our curriculum browser search bar to search the entire bank of lessons by keywords, or choose to browse by key stage or subject by clicking the relevant buttons.

By key stage

By subject

3. From there, if your pupils have internet-connected devices, send them the lesson link directly and allow them to work through the lesson independently. If they don't, download our accompanying resources – we have slides, sheets, and quizzes – and print them for offline use, or use them in your face-to-face lessons by sharing resources on a projector. You can even 'team-teach', using the Oak Teacher alongside you and playing the lesson video as needed ([read our blog](#) by history teacher Tom Rogers to learn more about this).

Download our directory for a complete overview

You can [download our lesson and resource directory](#) to easily filter lessons by subject and year group and find essential information– like which of our slides are downloadable (over 90%), and which of our teacher-led video lessons contain BSL (over 35%).
