

Bullhorn ATS & CRM

Features Overview

Bullhorn's Applicant Tracking System and Customer Relationship Management ("ATS & CRM") software combines two powerful solutions that centralize and refine the sales and recruitment process – helping improve productivity and strengthening customer relationships from a single, easy-to-use interface.

Applicant Tracking

Centralize the management of candidates, jobs, and tasks to streamline the recruitment process and improve team productivity.

Customer Relationship Management

Close the loop between sales and recruiting and gain visibility into your clients' changing business needs with a mobile CRM purpose-built for staffing firms.

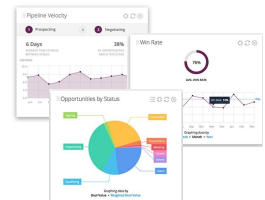

Email Integration

Parse in resumes, add notes, and create tasks directly from your inbox – while automatic tracking ensures all emails are captured in the ATS.

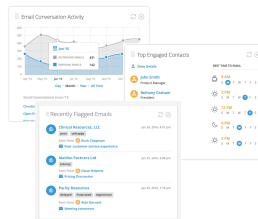

Dashboard Reporting

Transform your team's recruiting activity into actionable business insights with configurable reports tailored to your specific goals and KPIs.

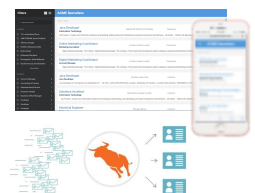

Pulse Relationship Intelligence

Take your candidate and client relationships to the next level with insights that enable you to deliver a superior customer experience

Candidate Engagement

Allow job seekers to easily find and apply to your open positions – then leverage mass mailing or Bullhorn SMS to engage with the top candidates.
